

# AMERICAN JOURNAL OF OPHTHALMOLOGY

THIRD SERIES FOUNDED BY EDWARD JACKSON

VOLUME 39  
January-June, 1955

---

#### EDITORIAL STAFF

DERRICK VAIL, *Editor-in-Chief*

LAWRENCE T. POST, *Consulting Editor*

BERNARD BECKER

DONALD J. LYLE

WILLIAM L. BENEDICT

WILLIAM A. MANN

FREDERICK C. CORDES

P. ROBB McDONALD

SIR STEWART DUKE-ELDER

FRANK W. NEWELL

EDWIN B. DUNPHY

JOHN V. V. NICHOLLS

F. HERBERT HAESSLER

ALGERNON B. REESE

PARKER HEATH

PHILLIPS THYGESEN

S. RODMAN IRVINE

M. URIBE TRONCOSO

JAMES E. LEBENSOHN

ALAN C. WOODS

KATHERINE FERGUSON CHALKLEY, *Manuscript Editor*

MILDRED SKINNER, *Advertising and Business Manager*

#### COLLABORATORS

CHARLES A. BAHN, *New Orleans*; THEODORE BISLAND, *Washington, D.C.*; EUGENE M. BLAKE, *New Haven*; FREDERICK C. BLODI, *Iowa City*; SYLVAN BRANDON, *Houston*; JAMES W. BRENNAN, *Buffalo*; WILLIAM C. CACCAMISE, *Rochester, New York*; ALSTON CALLAHAN, *Birmingham*; FRANCIS C. CRAGE, *Chicago*; BEULAH CUSHMAN, *Chicago*; LOUIS DAILY, JR., *Houston*; RAY K. DAILY, *Houston*; ALICE R. DEUTSCH, *Memphis*; ORWIN H. ELLIS, *Los Angeles*; IRWIN E. GAYNON, *Milwaukee*; BERTHA T. HAESSLER, *Milwaukee*; DAVID O. HARRINGTON, *San Francisco*; HARRY HORWICH, *New York*; MORRIS KAPLAN, *Denver*; PETER C. KRONFELD, *Chicago*; JOHN C. LOCKE, *Montreal, Canada*; R. T. LOWE, *Melbourne, Australia*; GYULA LUGOSY, *Budapest*; WALTER MAYER, *Richmond, Virginia*; HARRY K. MESSENGER, *Boston*; BENJAMIN MILDEN, *Saint Louis*; YUKIHIKO MITSUI, *Kumamoto, Japan*; ROBERT A. MOSES, *Delavan, Wisconsin*; BENNETT W. MUIR, *Denver*; ERNST SCHMERL, *Toledo*; THEODORE M. SHAPIRA, *Chicago*; JOHN J. STERN, *Utica, New York*; V. TABONE, *Juliano, Malta*; GEORGE S. TYNER, *Denver*; A. URRETS-ZAVALIA, JR., *Cordoba, Argentina*; H. C. WEINBERG, *University Heights, Ohio*.

PUBLISHED BY THE OPHTHALMIC PUBLISHING COMPANY

664 North Michigan Avenue, Chicago 11, Illinois

## COLOR ILLUSTRATIONS

VOLUME 39

JANUARY-JUNE, 1955

PLATE 1. Vogt-Koyanagi syndrome. <i>Figure 3</i> . Pronounced poliosis of the scalp. <i>Figures 4 and 5</i> . Areas of vitiligo. Edgar A. Swartz . . . . .	facing page 493
RESPONSES of intraocular pressure, blood pressure, and cutaneous vessels to electric stimulation in the diencephalon. <i>Figures 16, 17, 18, and 19</i> . Diagrammatic sketches of a portion of the interbrain—sagittal view. Distribution plots showing points stimulated and resultant responses. Ludwig von Sallmann and Otto Lowenstein . . . . .	facing pages 122 and 123
PLATE 2. Precancerous and cancerous melanosis of the conjunctiva. <i>Figures 1a and 1b</i> . Precancerous melanosis. <i>Figure 2</i> . Cancerous melanosis involving all of the bulbar conjunctiva except a small area nasally (not shown here). <i>Figures 3a, 3b, and 3c</i> . Cancerous melanosis, illustrating the characteristic diffuseness of the lesion. Algernon B. Reese . . . . .	facing page 196
PLATE 3. Precancerous and cancerous melanosis of the conjunctiva. <i>Figures 4a and 4b</i> . Cancerous melanosis manifesting a spontaneous decrease in pigmentation. <i>Figures 5a-1, 5a-2, 5b-1, and 5b-2</i> . Tissue cultures. Algernon B. Reese . . . . .	facing page 197
PLATE 4. Precancerous and cancerous melanosis of the conjunctiva. <i>Figure 6</i> . Congenital stromal melanosis. <i>Figures 7a and 7b</i> . Congenital conjunctival melanosis. <i>Figure 8</i> . A section of congenital melanosis. Algernon B. Reese . . . . .	facing page 198
PLATE 5. Fundus changes caused by alterations of the vitreous body. <i>Figures 1a, 1b, and 1c</i> . Macular detachment probably due to traction by the hyaloid membrane. <i>Figures 2a and 2b</i> . Macular detachment without visible break, probably due to traction by the hyaloid membrane upon the normal vitreoretinal adhesions present in the macular region, <i>Figure 3</i> . Fundus view of the upper temporal quadrant in a case showing paracentral chorioretinitis and peripheral retinal detachment. <i>Figure 4</i> . Portion of the nasal fundus in a case with inferior retinal detachment. Charles L. Schepens . . . . .	facing page 631

<sup>†</sup> preceding the page number indicates that the paper was published in Part II of the April issue.

## SUBJECT INDEX

**Explanation:** Numbers in **boldface** refer to original contributions. The asterisk (\*) preceding the page number indicates that the paper was published in Part II of the *February* issue. The dagger (†) preceding the page number indicates that the paper was published in Part II of the *April* issue.

### A

Abducens, electromyographic studies on palsy of, 906  
Abnormalities: See under Congenital Anomalies and under names of various organs and regions  
**ABSTRACTS:** 115, 258, 434, 605, 770, 897  
1. Anatomy, embryology, and comparative ophthalmology: 115, 434, 605  
2. General pathology, bacteriology, immunology: 116, 435, 897  
3. Vegetative physiology, biochemistry, pharmacology, toxicology: 118, 436, 605, 770, 898  
4. Physiologic optics, refraction, color vision: 125, 258; 442, 607, 772, 901  
5. Diagnosis and therapy: 130, 258, 446, 608, 773, 903  
6. Ocular motility: 136, 263, 450, 609, 775, 906  
7. Conjunctiva, cornea, sclera: 138, 263, 453, 610, 777, 908  
8. Uvea, sympathetic disease, aqueous: 142, 264, 456, 612, 778, 910  
9. Glaucoma and ocular tension: 143, 266, 456, 612, 779, 911  
10. Crystalline lens: 146, 267, 461, 613, 781, 913  
11. Retina and vitreous: 147, 269, 463, 613, 782, 914  
12. Optic nerve and chiasm: 149, 272, 467, 615, 919  
13. Neuro-ophthalmology: 149, 272, 467, 616, 784, 920  
14. Eyeball, orbit, sinuses: 151, 273, 469, 618, 786, 922  
15. Eyelids, lacrimal apparatus: 152, 274, 471, 618, 786, 923  
16. Tumors: 275, 626, 788, 924  
17. Injuries: 276, 621, 788, 924  
18. Systemic disease and parasites: 277, 622, 924  
19. Congenital deformities, heredity: 286, 624, 926  
20. Hygiene, sociology, education, and history: 280, 636, 928

**ACCOMMODATION:** convergence and, 129  
during vestibular stimulation, 920  
impairment of, 583  
lens subluxation during, 551

**Acetazolamide:** See Diamox

**ACTH:** 132  
effect on aqueous, 121  
exophthalmos and, \*146  
in experimental tuberculosis, 448  
in ocular pemphigus, 610  
in office treatment, 100  
in retinitis pigmentosa, 770  
in Sjögren's syndrome, 923  
in uveitis, ocular tension after, 175  
influence on vitreous hemorrhage absorption, 677

**Adenoma:** of conjunctiva, 433

**Age:** color sense and, 607

**Aged:** anesthesia for, 608

**epiphora of, 619**

**Alcohol:** action retrobulbar on pigment degeneration retina, 900  
corneal damage due to, 121  
effect of, on binocular vision, \*44

**See also** Methanol

**ALLERGY:** 135  
conjunctivitis due to, therapeutic results, 138  
drugs in ocular, 97

**fundus manifestations of, 147**

**in experimental tuberculosis, 435**

**of pinguecula, 138**

**Amaurosis, hysterick, 272**

**in optic neuromyelitis, 272**

**Amotoretic idiocy, 240**

**pathology retina and brain tissues in, 874**

**AMBYLOPIA:** 608  
ex anopsia, glaucoma and, 281  
foveal vision in, 446  
hysterick, 272  
in strabismus, 445  
nutritional: See Nutritional amblyopia  
visual fields in, 786

**Amino acids, free in aqueous, 441**

**ANESTHESIA:** 773  
for aged, 608  
general, 262  
hypnotic, 774  
intravenous, for infants, 132  
in cataract extraction, 782  
unilateral blindness during, 447

**Aneurysm, carotid, 384**

**Angiectases, in diabetes, 271**

**Angioid streaks, pathology of, 269**

**Angioma, of choroid, 263**  
of eyelids, 275  
of orbit, 275

**Angiopathy, retinae traumatic: See Purtzscher's disease**

**Aniridia, after cataract extraction, 146**  
congenital, 280

**Aniseikonia, diagnosis of with amblyoscope, 126**  
testing of, with space eikonometer, 638

**Anisocoria, 921**

**Anisophoria, clinical significance of, 137**

**Anophthalmos, congenital, 400**

**ANTERIOR CHAMBER:** angle of, tumor of, 779  
conjunctival implants into, 1165  
cotton fibrils in, 131  
delayed restoration of, glaucoma due to, tonographic study, 1147  
depth changes in glaucoma, 780  
epithelial downgrowth into, after cataract extraction, 788  
X-ray treatment in, 368

**hyaluronidase injections into (rabbit), 198**

**puncture, in leprosy iritis, 142**  
prognostic value of, 265

**tumor implant in, effect cortisone on, 435**

**Anterior segment, photography of, 228**  
of rabbit eye, \*40

**ANTIBIOTICS:** 134  
Biophthal, new combination of, 447  
by subconjunctival injection, 771  
effect on herpes simplex of broad and medium spectrum, 689

effect of new on herpetic keratitis

in corneal ulcers, 909

in intraocular infections, 94

in vitreous, 442

stability in oil, 438

See also under names of various antibiotics

**Antibodies, in aqueous, 435**

**Anticoagulants, effect on corneal wound healing, 417**

in retinal vein thrombosis, 465

**Antihistamines, action on isolated iris muscle, 130**

**zinc and, in eye therapy, 449**

**APHAKIA:** adjustment to, 249  
bilateral, eikonometry and phoria in, 130  
half-glasses for, 238  
management of, 67  
refraction in, 749  
vitreous alterations in, 464

**AQUEOUS:** amino acids free in, 441  
antibodies in, 435  
corticosteroids in, 871  
effect ACTH on, 121  
effect osmotic pressure blood on, 459

**FLOW:** carbonic anhydrase inhibition and, 159  
influence blood change on, 441

**ion concentration variation in, after paracentesis, 517**

**Magnamycin penetration into, \*234**

**microscopic findings, in primary (rabbit), 897**  
in regenerated (rabbit), 897

**OUTFLOW:** after cyclodialysis, 780  
in chronic glaucoma, action adrenalin on, 913  
resistance to, 772

**Schlemm's canal and, 165**

**rate of, in man, 460**

**vitamin-C exchange in, 439**

**Explanation:** Numbers in **boldface** refer to original contributions. The asterisk (\*) preceding the page number indicates that the paper was published in Part II of the *February* issue. The dagger (†) preceding the page number indicates that the paper was published in Part II of the *April* issue.

**Aqueous veins, biomicroscopic aspect compared with venous pressure and ocular tension, 793**  
**Arachnoiditis, results of craniotomy in, 468**  
**Arteritis, temporal, 110**  
 eye involvement in, 223  
 histology of, 278  
**Artery, ophthalmic, anatomy of origin of, 1160**  
 in hypertension, 624  
**Arthritides, retinitis pigmentosa, scleromalacia perforans, and 161**  
**Asthenopia, ultraviolet-absorption lenses in, 773**  
**Association for Research in Ophthalmology:**  
 auditor's report, \*269  
 business session, \*268  
 directory, \*253  
 officers, \*253  
 proceedings of 23rd meeting, Part II, February  
**Astigmatism, 128**  
 refraction in, 751  
 surgical treatment of, 773  
 tests for, dials for, 84  
**Atomic radiation, lens opacities due to, 4-year study, 285**  
**Aureomycin, in trachoma, 909**  
**Autokinetic movements in dark, 451**

**B**

**Ballantyne, Arthur James, 429**  
**Behcet's disease, 456**  
**Bell's phenomenon, after ptosis operation, 617**  
**Besmitia infection, in hamsters, \*203**  
**Beta radiation: See Radiation therapy**  
**Biophthal, a new antibiotic combination, 447**  
**Blepharitis, due to Trichophyton gypseum, 619**  
**BLINDNESS: due to multiple pterygium, 572**  
 in children, clinical study, 281  
 in Iceland, prevention and causes, 202  
 substitute functions in, 928  
**Blood-Aqueous barrier, after glaucoma operations, 457**  
 influence oscillation and electroshock on, 771  
 permeability, action dihydroergotamine on, 437  
**Blood: loss, visual impairment after, 926**  
 pressure, control of, during operation, 609  
 diurnal variations of venous, ocular tension and, 793  
 response to diencephalon stimulation, 111  
**BLOOD VESSELS: cutaneous, response to diencephalon stimulation, 111**  
 influence autonomic drugs on eye, 121  
 laminated of eye, ocular tension and, 123  
 of eye, effect oxygen on developing, 118  
 retrosternal fibroplasia and, 119  
 of retina: See Retina, blood vessels of  
**Books received for review, 114, 257, 433, 604, 769**

**BOOK REVIEWS:**

**Wolff, Eugene: The Anatomy of the Eye and Orbit, 431**  
**Wolstenhome, G. E. W., and Freeman, J. S.: Peripheral Circulation in Man, 603**  
**Butazolidin, 612**

**C**

**Campimetry, in determining flicker fusion, 126, 127**  
 in neuro-ophthalmology, 785  
**CARCINOMA: metastatic to eye from breast, 620**  
 of ciliary body, 37  
 of iris, 37, 612  
**Carbomycin, in ocular infections, 51**  
**Carbonic anhydrase inhibition, and aqueous flow, 159**  
**Carotid, aneurysm of, 584**  
 thrombosis, collateral circulation through ophthalmic artery in, 469  
**Carotid-cavernous fistula, 469, 521**  
**CATARACTS: after retinal detachment, 613**  
 alloan-diabetic (rabbit), 510  
 anterior interocular uncinate, 268  
 atopic dermatitis and, 462  
 complicated, operation of, 268  
 congenital, herpes zoster as cause of, 157  
 conical cornea and, 280  
 lenticonus, and, 462  
 cysts, lipomas, and, 624  
 discussion operation for, 782  
 cortisone in, 462  
**EXTRACTION: 613, 782**  
 aniridia after, 146  
 as office procedure, 715  
 choroidal detachment in, 463  
 complications of, 462  
 corneal turgescence after, 462  
 curare in, simplified administration of, 697  
 delayed anterior chamber restoration after, glaucoma study in, 7147  
 diatom in wound healing after, 86  
 epithelial downgrowth after, X-ray treatment in, 888  
 extracapsular, 613  
 cortisone in, 462  
 incisions in, 268  
 intravenous anesthesia in, 782  
 iris inclusion with, 71  
 iridocyclitis and, 268  
 sutures in, 269, 461  
 preplaced sclerocorneal, results of, 843  
 symposium on, 781  
 valve conjunctival flap in, 81  
 fluid movement in lens with, 461  
 formation, and diabetes control (rat), 462  
 galactose, effect carboxylase on development of, 898  
 hypermaturity, lens capsule rupture in, 403  
 in myotonic dystrophy, 913  
 ionizing radiation, 607  
 morgagnian, 603, 575  
 radiation, 285, 607

## SUBJECT INDEX

v

**Explanation:** Numbers in **boldface** refer to original contributions. The asterisk (\*) preceding the page number indicates that the paper was published in Part II of the *February* issue. The dagger (†) preceding the page number indicates that the paper was published in Part II of the *April* issue.

**CATARACTS (continued)**  
 retinal detachment, atopic dermatitis, and, 462  
 self-cure of, 461  
 senile, catarcotic factor in urine of patients with, 125  
 ultraviolet absorption of, 899  
 surgery of, complications of, 914  
**Chemotherapy of eye tuberculosis**, 758  
**Chiaski, syndrome of**, 616  
 progress of, 149  
**Chicago Clinical Conference**, 599  
**Chicago Ophthalmological Society**, 239, 586, 742  
**Chickenpox, uveitis in**, 911  
**CHILDREN: blindness in**, clinical study of, 281  
 orbital cellulitis in, 618  
 reading problems in, 445  
 school: visual screening test for, 369  
 visual study of, Danbury, Conn., 527  
**Chloroma, exophthalmos in diagnosis of**, 276  
**Chloromycetin, in ophthalmology**, 118  
**Chlorpromazine**, 110  
**Cholesteatoma, of orbit**, 786  
**Cholesterinosis**, 131  
**Choriocapillaris, retinal dehiscence in disturbances of**, 911  
**Chorioretinitis, Jensen's, visual fields in**, 614  
 slitlamp study of, 465  
 toxoplasmosis in adult, 911  
**CHOROID:**  
 angioma of, 265  
 detachment of, after retinal detachment operations, 466  
 in cataract extraction, 463  
 placenta therapy in, 265  
 metabolism of, after placenta extract, 770  
 metastasis to, of bronchial adenoma, 33  
 vascular anatomy of, 434  
**Choroideremia, electroretinogram in**, 166  
**Choroiditis, tuberculin treatment of**, 653  
 unilateral, 142  
**Choriodopathy**, 456  
**Ciliary body, carcinoma of**, 37  
**Coats' disease**, 574  
**Cochlea, changes induced by tobacco**, 898  
**Coffee, influence on ocular tension**, in glaucoma, 700  
 in normal eyes, 700  
**Cogan, David Glendenning**, \*2  
 biographical data, \*4  
 publications of, \*5  
 remarks made on acceptance of Proctor Medal Award, \*3  
**Collagen tissues, disease of, ocular changes in**, 279  
 heat injury to, 608  
**Coloboma, of uveal tract**, 586  
**Color blindness: dichromatopsia, exercises for**, 442  
 tests, H-R-R polychromat plates, 444  
**Color sense, age and**, 607  
**Color vision, branched schema pathway for**, \*8  
 color printing and, 902  
 cone participation in, \*24  
**Compensation, for ocular injuries**, 929  
 in United States, 821  
**CONGENITAL ANOMALIES: aniridia: See Aniridia**  
 cephalic malformations, 928  
 goniometry in, 626  
 of cornea, 626  
 platybasia and Arnold-Chiari malformation, 149  
 retinitis pigmentosa and, 927  
 vascular, syringomyelia and, 728  
**CONJUNCTIVA: adenoma of**, 453  
 blood vessels of, 453  
 bulbar, blood vessels of, 277  
 lymphatics in, 260  
 vascular bed of, in toxemia of pregnancy, 455  
 cancerous melanosis of, 196  
 dermoid of, 141  
 epithelioma of, 777  
 implants of, into anterior chamber, †165  
 lymphatics in bulbar, 260  
 precancerous melanosis of, 196  
**CONJUNCTIVA (continued)**  
 tuberculosis of, 454  
 tumors of, 619  
**CONJUNCTIVITIS**: 611  
 allergic, therapeutic results, 138  
 due to molluscum contagiosum, 302  
 gonorrhreal, 747  
 influence of age on, 540  
 phytotherapy of, 611  
**CONTACT LENSES**: 750, 773  
 ability to tolerate, 128  
 diagnostic, 906  
 for underwater seeing, 127  
 in conical cornea, 607  
**CONVERGENCE: accommodative**, 903  
 accommodative response in asymmetric, 129  
 during vestibular stimulation, 920  
 proximal, 136  
**Corexray**, 189  
**CORNEA: calcium affections of**, 453  
 changes in cystinosis, 263  
 in stone masons, 454  
**CONICAL: cataract and**, 280  
 contact lens in, 607  
 iridochisis and, 456  
 lenticular, cataract, and, 462  
 military service and, 263  
 pathology of, 909  
 crystals of, appearance, 120  
 damage to, with alcohol, 121  
 with tear gas, 264  
**DYSTROPHY: crystalline**, 454  
 hereditary, classification of, 138  
 treatment of, 138  
 juvenile, 612  
 marginal, 777  
 effect oxygen on new vessel growth in, 899  
 elasticity of, 811  
 in disease, 817  
 epithelium, mitotic activities of, 124, 441  
 wound healing activities of, 124, 441  
 erosions of, treatment, 610, 778  
 findings in, in ichthyosis, 575  
 growth of, in tissue culture, \*242  
 guttata, 611  
 lesions of, ultrasonic therapy in, 437  
 leukemia of, corneal transplantation in, 139  
 malformations of, 626  
 melanoma of, 454  
 mucoids of, 118  
 mycoses of, 138  
 patency of openings in, anterior to plastic discs, \*185  
 penetrating injuries of, 742  
 phosphatase of, 771  
 pulse wave of, 449  
 trephining of, 446  
 turgescence of, after cataract extraction, 462

## SUBJECT INDEX

**Explanation:** Numbers in **boldface** refer to original contributions. The asterisk (\*) preceding the page number indicates that the paper was published in Part II of the *February* issue. The dagger (†) preceding the page number indicates that the paper was published in Part II of the *April* issue.

**Tumors (continued)**

- of ciliary body, 37
- of conjunctiva, 196, 141, 453, 619, 777
- of cornea, 454
- of eyelid, 152, 208, 275, 469, 619, 787
  - radiation therapy in, 274, 275
  - therapy of, 276
- of iris, 37, 143, 264, 612
- of lacrimal gland, 575
- of optic disc, 616
- of optic nerve, 149, 272, 467, 615, 885
- of orbit, 43, 151, 152, 239, 273, 275, 469, 470, 584, 786
- of retina, 917
- of stellar region, perimetry in, 260
- radiation therapy in, 259
- retinoblastoma: See *Retinoblastoma*
- subretinal fibroma, 466
- suprasellar meningioma, 582
- surgical treatment of malignant, 261
- treatment of intraocular, 281
- See also under names of various areas, organs, and tumors

**U**

- Ultrasonic, energy in ophthalmology, 437, 440
- therapy in corneal lesions, 437
- Ultrastructure, of ocular tissues, 115
- Ultraviolet, absorption lenses, in asthenopia, 773
  - absorption, in senile cataract, 899
- Urine, catarcogenetic factor in, 125
- UVEA: coloboma of, 588
  - tissue of, hypersensitivity to, 196, 377
- UVEITIS: diagnostic problems in, 423
  - etiology of, 142
  - glaucoma, optic neuritis, and, 573
  - hormonal steroid therapy in, tension increase due to, 175
    - in chickenpox, 911
    - in Hodgkin's disease, 911
    - nongranulomatous, 247
    - tuberculosis, 749

**V**

- Varidase (Streptokinase-streptodornase), in corneal ulcers, 455
- Vascular, disease, incidence in glaucoma, 911
  - new theories of, 362
- system, anomalies of, with syringomyelia, 728
- Vasodilator drugs, effect on electroretinogram, 439
  - in retinal vein thrombosis, 465
- Vasomotor neuroses, 8
- Vernal catarrh, electrophoresis of blood in, 456
- spleen irradiation in, 264
- VIRUS: diseases in pregnancy, 927
  - medication in, 91
  - mumps, experimental intraocular infections with, 579
- trachoma: See *Trachoma*
- VISION: changes in, in exophthalmos, 618
  - effect of alcohol on binocular, 448
  - near, new way to express, 127
  - recovery of, after rupture of globe, 621
  - stereoscopic, basis of, 445
- Visual acuity, effect high altitude on, 901
  - in retinitis pigmentosa, after dicumarol, 46

**Vision (continued)**

- Visual fields, changes, in myopia, 126
- defects, in glaucoma, 458
- in amblyopia of *beri-beri*, 786
- in Jensen's chorioretinitis, 614
- in retinitis pigmentosa, after dicumarol, 46
- tests, with binocular fixation, 566
- vertical asymmetry of isopters and, 129
- Visual pathways, development of, 434
- Visual purple, effect irradiation on, 849
- Visual screening, of school children, in Danbury, Conn., 527
  - test for, 369

- Visual skills, ACA ratio to measure, 280
- Visual training, motion pictures in, 130

**VITAMINS:**

- A: in healing corneal ulcers, 777
- B<sub>12</sub>: action on corneal wounds, 606
- C: exchange in aqueous, 439
  - in fixed cells of cornea, 439
  - metabolism, in lens, 440
- D: excess of, calcified scleral nodules due to, 658
  - intoxication, keratitis due to, 139
- H<sub>1</sub>: action on corneal wounds, 606
- T: effect on corneal wounds, 119

**VITREOUS:**

- alterations, fundus changes due to, 631
  - in aphakic eyes, 464
- antibiotics and, 442
- attachments, during eye movements, 434
- biomicroscopy of, 464
- dynamics, during eye movements, 434
- edema of, 83
- foreign bodies in, management of, 752
- hemorrhage, absorption of, 677
- nitrogen of, in retinal degeneration, 772
- prolapsed, sequelae of, 1100
- treatment of, 1100
- properties of, dependent on hyaluronic acid, 1100
- studies on, 1100
- synchysis of, 744
- transplantation of (experimental), 124
- vascular veins of, 742
- X-ray diffraction of, 124
- Vogt-Koyanagi syndrome, precipitated by lens extraction, 488
- Voluntary ocular fibrillation, 78

**W**

- Wills Eye Hospital, 7th clinical conference, 759

- Wilson's disease, fundus changes in, 269

- WOUNDS: corneal, effect vitamin T on, 119

- healing of, sutured limbal, 859

- strength of eye, study of, 859

**X-Y-Z**

- Xanthoma, 273

- X-RAYS: diffraction of vitreous, 124

- photography with air injection, 260

- therapy, in congenital lesions, 609

- in corneal vascularization, 141

- in epithelial downgrowth, 868

- visualization, with air injection, 274

- Yale University Clinical Conferences, 245, 749

- Zygoma, fractures of, involving the orbit, 183

## COLOR ILLUSTRATIONS

### VOLUME 40

July-December, 1955

EQUATORIAL SCLERAL STAPHYLOMA: SURGICAL TREATMENT IN A CASE WITH RETINAL DETACHMENT. Charles A. Young, Jr. ....	facing page 12
BLANK FOR SKETCHING LESIONS OF THE FUNDUS. Conrad Berens .....	facing page 108
PERSISTENT HYPERPLASTIC PRIMARY VITREOUS: THE JACKSON MEMORIAL LECTURE. Algernon B. Reese .....	facing pages 320, 321, 323, 328
PRIMARY DEGENERATION IN THE VICINITY OF THE CHAMBER ANGLE: AS AN ETIOLOGIC FACTOR IN WIDE-ANGLE GLAUCOMA. C. C. Teng, R. T. Paton and H. M. Katzin .....	facing pages 622, 624, 626, 628
STUDIES OF IMMUNITY IN VACCINIA KERATITIS IN RABBITS. John S. Speakman and Hugh L. Ormsby .....	facing page *194
FUNDUS CHANGES IN POSTOPERATIVE HYPOTONY. Angelos Dellaporta .....	facing page 781

## SUBJECT INDEX

**Explanation:** Numbers in **boldface** refer to original contributions. The asterisk (\*) preceding the page number indicates that the paper was published in Part II of the November issue.

### A

Abducens, paralysis of, 938  
Abnormalities: See under Congenital Anomalies and under names of various organs and regions  
Abortion, visual disturbances after clinical, 612  
**ABSTRACTS:** 137, 279, 448, 593, 756, 916  
1. Anatomy, embryology and comparative ophthalmology: 137, 448, 756, 916  
2. General pathology, bacteriology, immunology: 139, 279, 450, 757, 917  
3. Vegetative physiology, biochemistry, pharmacology, toxicology: 140, 280, 451, 758, 917  
4. Physiologic optics, refraction, color vision: 142, 283, 454, 759, 920  
5. Diagnosis and therapy: 144, 283, 455, 763, 922  
6. Ocular motility: 289, 459, 768, 927  
7. Conjunctiva, cornea, sclera: 146, 291, 460, 593, 770, 928  
8. Uvea, sympathetic disease, aqueous: 148, 294, 463, 594, 772  
9. Glaucoma and ocular tension: 149, 296, 463, 595, 772, 929  
10. Crystalline lens: 151, 299, 466, 596, 774, 932  
11. Retina and vitreous: 152, 301, 599, 775, 934  
12. Optic nerve and chiasm: 153, 304, 602, 777, 937  
13. Neuro-ophthalmology: 153, 602, 938  
14. Eyeball, orbit, sinuses: 307, 605, 941  
15. Eyelids, lacrimal apparatus: 154, 307, 607, 942  
16. Tumors: 155, 308, 609  
17. Injuries: 155, 309, 609, 943  
18. Systemic disease and parasites: 156, 310, 613, 944  
19. Congenital deformities, heredity: 156, 310, 613, 945  
20. Hygiene, sociology, education and history: 311, 614, 947

**ACCOMMODATION:** 455  
changes during, observed by goniometry, 760  
convergence and, ratio of, 455  
eye tonic "Stullin" and, 144  
spasm of, 455  
stimulus to, 759

Acetazolamide: See Diamox

Acetylcholine, in epidemic keratoconjunctivitis, 293

ACTH: hydrolize of, in inflammations, 295

in collagen diseases, 611

in retinitis pigmentosa, 152

Adiposefolyl dystrophy, scotopic vision in, 286

Adnexa of eye, keratocanthoma of, 609

Adrenal steroids, uses and abuses of, 283

Adrenalin, in glaucoma, 666  
to modify aqueous production, 666

Albucid, a Ross Foundation discovery, 313

**ALLERGY:** bacterial, manifestation of, 705  
due to antibiotics, 849  
histopathology of acute hypersensitive reactions, 631  
of chronic hypersensitive reactions, 631  
in eye inflammations, 705  
report on 36 patients referred to internist, 705  
to terramycin, 264

vascular phenomena of, 925

Amaurosis, hysterical, 153

quinine, 260

**AMBLYOPIA:** eccentric fixation and treatment of, 760  
ex anopsia, treatment of, 922  
fixation in, 760

macula stimulator for, 590

of strabismus, evaluation of, 769

quinine, 141, 777

toxic, due to sulfonamides, 486

**Ametropia, pupil in, 481**

retinal circulation and, 142

retinal image in, 922

**Amino acids, of aqueous proteins, 919**

**Anemia, in glaucoma, 931**

### ANESTHESIA: 284

air conditioner for, 563  
general, 765  
intravenous, 920  
local, long-lasting agents for, 289  
observations on, 426  
surface, effect on corneal regeneration, 282  
topical, 697

### ANEURYSMS: circle of Willis, preretinal hemorrhage, in, 153

congenital of retina, 777  
convergence insufficiency due to, 110  
diplopia due to, 110  
intracranial, 604, 939

visual apparatus and, 605

of retina, 777

### Angioid streaks, with pseudoxanthoma elasticum, 357

**Angiomatosis, cerebral, eye signs of, 305**

**Angioscopy, retinal, in chronic glaucoma, 296**

Aniridia, congenital, 259

Aniseikonia, 142

Anisometropia, facial asymmetry and, 307

light sense in, 920

visual behavior in, 143

### Ankyloblepharon, filiforme adnatum, 608

**ANTERIOR CHAMBER:** angle of, anatomy in congenital glaucoma, 1  
crystals in, 817  
delayed epithelialization of, after cataract extraction, 291  
delayed formation of, simple treatment for, 941  
depth, glaucoma and, 571  
development of anterior, 756  
fluorescein in, after intravenous injection, 581  
formation of aqueous and, 141  
gonioscopic study of, in congenital glaucoma, 1  
innervation trabecular system of, 139  
primary degeneration near, as cause wide-angle glaucoma, 619

### ANTIBIOTICS: abuse of, 910

in intracocular infections, 86

in trachoma, 553

insensitivity to commonly used, 425

toxic conjunctivitis due to, 849

See also under names of various antibiotics

### Antibody, formation, fluorescein to study, 758

**APHAKIA:** adjustment to, 754

contact lens in, 754, 920

in unilateral, 457

corrected, 143

ocular resection in, 144

### Apparent size, 762

**AQUEOUS:** adrenalin to modify production of, 666

after Diamox (rabbit), 917

anterior chamber formation of, 141

ascorbic-acid concentration of, after corneal injury, \*111

after inflammations, 581

Diamox in, 282

dynamics, effect retrobulbar procaine on, 151

effect Diamox on composition of, \*129

electrophoretic study of secondary, 463

examination after intracocular copper, 287

flow, Diamox and, \*139

hyaluronic acid in, 746

hyaluronidase in, 746

OUTFLOW: coefficient of, after Diamox, 693

with water test, 693

in glaucoma, 595

posterior chamber formation of, 141

proteins of, 282

amino acids of, 919

ultramicroscopy of, 581

urea content of, 142

Aqueous veins, effect parasympathetic drugs on, 931

**Explanation:** Numbers in **boldface** refer to original contributions. The asterisk (\*) preceding the page number indicates that the paper was published in Part II of the November issue.

**Arachnoiditis**, cortisone in opticociasmatic, 605  
**Arteriosclerosis**, retinography in, 613  
**Arteritis**, temporal, loss of vision and, 945  
**ASCORBIC ACID**: of aqueous, after corneal injury, \*III  
 in inflamed eyes, 758  
 in normal eyes, 758  
 studies of corneal acid injuries, \*III  
 utilization of, by burned irises, \*III  
 See also under Vitamin C  
**Ascorbic-dehydroascorbic acid**, in lens metabolism, \*224  
**Association for Research in Ophthalmology**:  
 auditors' report, 247  
 business session, 246  
 directory, 253  
 officers, 251  
 proceedings of 24th meeting, 245  
 summary of membership by years, 246  
**Astigmatism**, biaxigmatism, 283  
 test for, 921  
 Raubitschek, 117  
**Astroglia** of retina, cells of Remak and, 757  
 studies of human, \*88  
**Atomic radiation**, changes due to, 309  
**Aureomycin**, in trachoma, 594

**B**

**Bacteria**, toxins of in eye disease, 705  
**Bandages**, changes in volume under ocular, 193  
**Beta radiation**: See **Radiation, beta**  
**Biochemistry**, of fish lens, 279  
**Birds**, sun navigation of, 921  
**Blackboards**, legibility of various types of, 454  
**Blepharitis**, herpetic after typhoid vaccine, 609  
**Blepharoptosis**, surgery in, 893  
**Blind**, children, 615  
 partially, progress report on several, 143  
**Blindsight**, mechanism of so-called, 802  
**BLOOD-AQUEOUS BARRIER**: action vasodilators on, 140  
 permeability, after iridencleisis, 596  
 effect of iridectomy on, 151  
 in myopia with glaucoma, 296  
 to anaphylactic shock, 450  
 to fluorescein, 452  
**Blood pressure**, of retina, relation to spinal fluid pressure, 459  
**BOOK REVIEWS**:  
 Able, Georgie L.: *Resources for Teachers of Blind with Sighted Children*, 591  
 Alexander, Harry L.: *Reactions with Drug Therapy*, 136

 Bowman's membrane, dystrophy of, 770  
 Bruch's membrane, choriocapillaris and, 449  
 Burdick ophthalmia, 310  
 Butazolidin, effect on inflammations, 282

**C**

**Calcium deposits**, intracranial, 763  
 of cornea, solvent for, 771  
**Canadian Ophthalmological Society**, 18th annual meeting, 272  
**Carbonic anhydrase activity**, and Diamox distribution in the eye, \*148  
 bicarbonate ion and, 281  
 ocular tension and, 281  
 See also under Diamox  
**CATARACTS**: after bee sting, 943  
 after corneal cauterization, 598  
 after glaucoma operations, 142, 572  
 beta radiation, 287  
 congenital, visual results after operation for, 299, 597  
 coralliform, familial, 597  
 crystalline, 596  
 due to dinitrophenol, 300  
 electrophoretic study of, 452  
**EXTRACTION**: 151  
 after intraocular tuberculosis, 599  
 after retinal detachment, 598  
 anterior chamber epithelialization after, 291  
 at Moorfields in 1949, 597  
 'corneal sutures in, 299  
 erisophake for, 597  
 extracapsular, capsule extraction after, 466  
 foreign bodies after, 146  
 glaucoma secondary to, 298, 570  
 Harrington's erisophake in, 466  
 hypotony after, 300  
 in glaucoma, 463  
 in younger age groups, 586  
 intracapsular, vitreous appearance after, 862  
 nylon bridle suture in, 251  
 pentothal sodium in, 597  
 procedure for, 741  
 shagreen in, 597  
 suture for, modified McLean, 598  
 uveitis after, 265  
 galactose (experimental), 453  
 hereditary posterior polar, 947  
 histopathology of, 596  
 in alloxan diabetes, 453  
 in galactosemia, 300  
 in idiopathic tetany, 466  
 incisions, survey of, 934  
 iodoacetic acid, 579  
 iris vessels in, 300  
 monocular, management of, 774  
 morgagnian, 102  
 oligophrenia and, 613  
 radiation, enzyme studies in, 871  
 in industry, 151  
 senile, hyphema after extraction of, 775  
 surgery for, facts, fallacies and failures, 933  
 of soft, 301  
**Cerebral palsy**, eye findings in, 611  
**Chiasma** disease, 940  
**Chicago Ophthalmological Society**, 119, 256  
**Chickenpox**, herpes zoster and, 269

## SUBJECT INDEX

V

**Explanation:** Numbers in **boldface** refer to original contributions. The asterisk (\*) preceding the page number indicates that the paper was published in Part II of the *November* issue.

**CHILDREN:** blind, 615  
 failing vision in, 924  
 optic atrophy in, diagnosis of, 937  
 preschool blind, 312  
 proptosis in, 942  
 school, achievements of, and visual anomalies, 313  
 vision of, Orthotester to test, 312  
 visual status and academic achievement, 615  
**Chloramphenicol**, combined with cortisone, 283  
**Choriocapillaris**, Bruch's membrane and, 449  
**Chorioretinal**, atomic flash burns, 155  
**Chorioretinitis**, atypical tuberculous, 934  
 central serous, 302  
 macular, 152  
**Chorioretinopathy**, posttraumatic, 579  
 of Siegrist, 776  
**CHOROID:** artery, visual fields after occlusion anterior, 796  
 atrophy of, with paraplegia, 614  
 changes, produced by shock, 451  
 melanoblasts of, 450  
 melanocarcinoma of, 463  
**Choroiditis**, posttraumatic, 148  
**Ciliary body**, in glaucoma surgery, 773  
**Ciliary ganglion**, pharmacodynamics of, 202  
**Ciliary muscle**, effect sympathetic nerve impulses on, \*155  
 in dog, 449  
 physiology of, 280  
**Clapp**, Clyde Alvin, 274  
**Coats' disease**, 775  
**Collagen**, corneal, 448  
**Collagen disease**, ACTH in, 611  
 disciform macular degeneration and, 936  
**Color deficiency**, manifest heterozygosity in carriers of, 763  
**Color vision**, clinical study of, 284  
**CONGENITAL ANOMALIES**: 946  
 and verticle muscle defects, 539  
 hereditary transmission in, 156  
 in rat embryo after maternal thyroidectomy, 65  
 ocular malformations, 580  
 of lacrimal apparatus, 608  
 school achievement and, 313  
 See also under names of various organs and regions  
**CONJUNCTIVA**: bacteriology of healthy, 757  
 burns of, 593  
 cortisone in, 147  
 cystine deposits of, 148  
 lymphatics of bulbar, 448  
 malignant tumors of, 252  
 pigmentation of, due to hydroquinone, 310  
 vital staining of, 287  
**CONJUNCTIVITIS**: catarrhal, corneal shadow-line in, 288  
 in threshers, 139  
 pseudomembranous, 294  
 toxic, due to antibiotics, 849  
 vernal, 291  
 photosensitization due to sulfonamides in, 293  
**CONTACT LENSES**: 454, 922  
 corneal changes due to, 282  
 in aphakia, 754, 920  
 unilateral, 457  
 Convergence, accommodation and, ratio of, 455  
 insufficiency, due to aneurysm, 110  
 nucleus of, 917  
 spasms of, 939

 ocular motility in, 940

## SUBJECT INDEX

**Explanation:** Numbers in **boldface** refer to original contributions. The asterisk (\*) preceding the page number indicates that the paper was published in Part II of the *November* issue.

**Myasthenia gravis (continued)**

- Tension in diagnosis of, 306
- MYOPIA:** and nonmyopia, 143
- blood-aqueous barrier in, 256
- development of, 763
- Fukala's operation in, 143
- heredity in, 283
- of prematurity, 474
- perimetry in high, 761
- pseudoneuritis in, 602
- pseudopapilledema in, 602
- retrolental fibroplasia and, 475
- scleral resection in, 144
- Myotonia, hypotony in, 611

## H

Negroes, tonography in, 224

Nematodes, eye disease due to, 41

**NERVES:** impulses, effect sympathetic on ciliary muscle, \*155

- injuries to, 306
- pathways, in glaucomatous capillary hypertension, 463
- sensory, of striated muscle, 449
- sixth, palsy with past-pointing to opposite side, 399
- study of, in glaucoma, 298
- third, nuclear arrangement, clinical evidence of, 432
- trigeminal, in pituitary tumor, 365
- Nervous system, influence in experimental iritis, 918
- Neurofibromatosis, glaucoma and, 940
- Neuromyelitis optica, 603
- Neuro-ophthalmology, signs after lobotomy, 306
- signs after topectomy, 306
- Neuropathology of eye, 758
- New England Ophthalmological Society, 426
- New York Society for Clinical Ophthalmology, 117, 569, 744

Newborn, gangrene of eyelids of, 155

optic atrophy of, 901

News Items, 157, 314, 467, 516, 778, 949

Nicotinamide, in oxidation vitamin A to retinene, \*39

Night blindness, vitamin-A deficiency and, \*36

Night driving, tinted windshields a hazard in, 615

Night vision, cinematographic evaluation of, 454

Nomogram, for problems of optics, 283

Novocaine, in keratitis, 292

NP 207, visual impairment from, 753

Nystagmus, in coal miners, 947

monocular, study by electric recordings, 665

## O

**OBITUARIES:** Clapp, Clyde Alvin, 274

MacCallan, Arthur Ferguson, 130

Parker, Walter Robert, 273

Pascal, Joseph Irving, 132

Snell, Albert C., Sr., 442

Tooke, Fred T., 752

Ochronosis, 944

**OCULAR TENSION:** action Diamox on, 773

adrenalin and sympathomimetic amines to reduce, 666

anemia as basis for increased, 931

carbonic anhydrase, and maintenance of, 281

decrease, after Diamox, 297

effect Diamox on, 150, 282, 465, 595

effect sleep on, 296

effect succinylcholine on, 501

effect sympathetic drugs on, 931

effect testicle denervation on, 931

**HYPOTONY:** fundus changes in, 781

in myotonia, 611

influence Rivasin on, 298

reduced, after cataract surgery, 300

variations in, in traumatic glaucoma, 150

Oedipism, 583

Oguchi's disease, 935

Onchoocerciasis, 945

**OPERATIONS:** Fukala's in myopia, 143

Conlein's, 941

Lagrange's sclerecto-iridectomy modified, 465

O'Connor cinch, 276, 928

Ophthaine, studies on, 704

Ophthalmia, burdock, 310

neonatorium, 771, 929

**Ophthalmic literature of Poland:** bibliography of, 615

**Ophthalmic Research:** 582

**Ophthalmic solutions:** See Solutions

**Ophthalmodynamometric data:** evaluation of, 764

**Ophthalmologists, patron saint for British:** 313

training of, 750

**Ophthalmology, artificial lighting in:** 312

efficiency in practice of, 312

postoperative care in, 764, 767

under attack, 588

useful techniques in, 745

**Ophthalmoplegia, exophthalmic:** 769

**Ophthalmoscope, uses for binocular indirect:** 251

**Ophthalmoscopy, and gonioscopy, with slitlamp and Allen-Thorpe gonioprism:** \*11

central slitlamp, \*16

peripheral, \*14

**Oplon, sympatholytic drug:** study of, 141

**Optic chiasm, primary glioma of:** 856

**Optic disc, pathogenesis of choked:** 604

**OPTIC NERVE:** and retina, a review, 304

**ATROPHY:** after isoniazid, 153

in children, hereditary, 937

in pituitary tumors, 360

of newborn, 901

duplicate, 938

excavation, senile changes in, 304

nontuberculous inflammation of, 139

nutritional supply of, 137

papilla of, 946

**Optic neuritis, corticotropin in:** 433

in tuberculous meningitis, 777

intravenous typhoid therapy in, 305

liver function in, 602

**Retrobulbar:** See Retrobulbar neuritis

**Optic papilla, tumors of:** 938

**Optic pathways, vascularization of:** 137

**Optical principles of loupe magnification:** 831

**Optics, and visual physiology:** A review, 762

nomogram for problems of, 283

**Optometry, ophthalmology and:** 588

**ORBIT:** fascia of, clinical significance, 927

fractures of, in tumor diagnosis, 284

granuloma of, 257

gumma of, 435

hemangiopericytoma of, 237, 786

hematoma of, 215

infections of, 942

metastasis to, from breast cancer, 605

radiologic studies of, 925

reticulosarcoma of, 155

tumors of, diagnosis and treatment, 941, 942

volume changes under ocular bandages, with positive pressure to, 193

X-ray study internal borders of, 145

**Orbitotomometry:** 606

**Orthography, perverted:** 591

**ORTHOPTICS:** lens to encourage macular perception, 419

muscle surgery and, 583

present status of, 768

treatment, indications for, 768

See also under Strabismus

**OXYGEN:** in retinal artery occlusion, 729

in retrolental fibroplasia: See Retrolental fibroplasia

to produce metabolic injuries of visual cells, 63

## P

**Pakistan, ophthalmology in:** 134

**Pan-American Congress:** 5th, 585

**Papilledema, differential diagnosis of:** 938

in pituitary tumor, 365

**Parinaud's syndrome:** from obstetric trauma, with recovery, 738

**Parker, Walter Robert:** 273

**Parkinson's syndrome:** 262

**Pascal, Joseph Irving:** 132

**Explanation:** Numbers in **boldface** refer to original contributions. The asterisk (\*) preceding the page number indicates that the paper was published in Part II of the *November* issue.

**Ultrasonic**, study of vitreous, **301**

**Ultrasound**, to treat vitreous opacities, **922**

**Ultrastructure**, of lens, **137**, **138**

**Ultraviolet**, radiation in perimetry, **764**

**Urea**, content of aqueous, **142**

**UVEA**: diseases of, a review, **148**  
tuberculosis of, **594**

**UVEITIS**: a medical problem, **148**  
after cataract extraction, **205**  
bacterial allergy and, **705**  
endogenous, **265**  
etiology of chronic, **772**  
experimental leptospiral, **280**  
isoniazid to treat, **285**  
lens-induced, glaucoma and, **463**  
retinal circulation in, **152**  
tonsil infection and, **434**  
tonsillectomy in, **772**  
toxoplasmosis and, **772**  
tuberculin reaction in endogenous, evaluation of, **647**

**V**

**Vaccine**, antiherpetic, studies on, **490**

**Vaccinia**, gamma globulin effect on, **279**  
infections, tetracycline in, **454**

**keratitis**, immunity studies in, **\*194**

**Vascular diseases of eye**, **612**  
flicker fusion to diagnose, **924**

**Vascular phenomena**, allergic, **925**

**Vasodilators**, action on blood-aqueous barrier, **140**

**Vernal catarrh**, affecting cornea, **994**

**Vernal conjunctivitis**: See *Conjunctivitis*, vernal

**VIRUS**: APC, isolated in case of epidemic keratoconjunctivitis, **\*200**  
in keratoconjunctivitis, **\*180**  
trachoma: See *Trachoma*

**VISION**: after congenital cataract operation, **597**  
behavior of, in anisometropia, **143**  
binocular, peripheral fusion in, **921**  
problems of, **922**  
examination of, when lowered to light perception, **288**  
in children, failing, **924**  
monocular, in workers, **311**  
optical devices to correct subnormal, **29**  
photoreceptor process in, **\*18**  
scotopic, in adiposigenital dystrophy, **286**  
in motor vehicle drivers, **921**  
suitability for work, **312**

**VISUAL ACUITY**: reading difficulties and, **306**  
binocular diaphragm in testing, **924**  
defects in, of psychogenic origin, **764**  
determination of, **761**  
in pituitary tumor, **362**  
objective determination of, **457**

**Visual adaptation**, bleaching visual pigments and, **\*34**  
synthesis visual pigments and, **\*34**

**Visual apparatus**, intracranial aneurysms and, **605**

**Visual cells**, metabolic injuries of, **\*60**  
oxygen to produce, **\*63**

**X-radiation** to produce, **\*63**

**Visual disturbances**, after abortion, **612**

**Visual excitation**, chemistry of, **\*18**

**VISUAL FIELDS**: defects, in pituitary tumors, **354**  
of psychogenic origin, **764**  
in chronic glaucoma, **296**  
in migraine, **307**  
loss in glaucoma, **573**  
scotomas in medial vertical line in, **603**  
significance when projected into space, **283**  
studies, after occlusion anterior choroidal artery, **796**  
with Goldmann perimeter, **146**

**Visual impairment**, from NP 207, **753**

**Visual incapacity**, after industrial accidents, **945**

**Visual pathways**, appraisal of function of, **580**

**Explanation:** Numbers in **boldface** refer to original contributions. The asterisk (\*) preceding the page number indicates that the paper was published in Part II of the *November* issue.
